OUR LEGACY

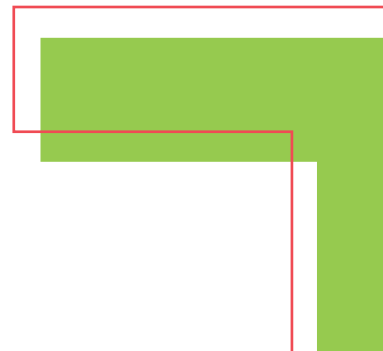

As one of the first trading companies in Mauritius, Harel Mallac has contributed to the growing Mauritian economy while pioneering major sectors.

The company's activities story began in 1789, when Charles-Pierre Harel, from Saint-Malo, Brittany, France, was authorised by the Governor of Isle de France to charter merchant ships from Port-Louis. On the other side, the Mallac family started their business activities in 1830 with a company bearing the name 'P. Elias and Tristan Mallac', which later became 'P. Elias, Mallac et Compagnie'. In 1920, the two sides merged into 'Harel Mallac & Co'.

Initially located at La Chaussée, in the heart of Port-Louis, the company had specialised in commerce, and insurance, while also supplying loans to local planters. Following the destruction of its premises by a fire in 1893, Harel Mallac & Co. moved its offices to Rempart Street, now known as Edith Cavell Street.

Incorporated in 1956, Harel Mallac & Co. has helped buttress strategic Mauritian industries by supplying high-quality products, services and expertise, which would contribute to bettering their performance. The vision and audacity of its leaders helped give our country a more prominent role on the world stage, whilst providing new opportunities to better the lives of Mauritians.

Listed on the Stock Exchange of Mauritius since 1991, Harel Mallac stands today as a key conglomerate that remains true to the spirit of its "purpose" : to Make a Difference for the Better.

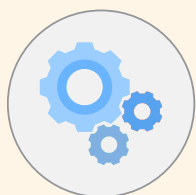

Harel Mallac has accompanied the economic expansion of Mauritius since birth and our hallmark remains to make available to Mauritians the best the world can offer.

Antoine L. Harel, Chairman of the Board of Directors

OUR PURPOSE

Committed to making a difference for the better of our people, our performance, our consumers and our planet.

Our purpose drives us in our everyday actions, as we believe that a business conducted with passion is the most powerful model for meaningful change.

We believe that, while we focus on meeting the needs of the present, we are responsible for not compromising the ability of future generations to meet their own needs.

We believe that continuing our development with this purpose as a compass is the only way to leave a strong legacy to the future generations of Mauritians.

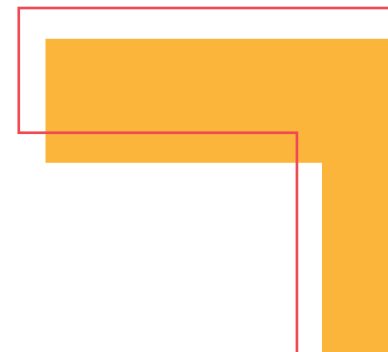

OUR GUIDING PRINCIPLES

Because *“better begins within ourselves”*, our commitment is fuelled by fundamental guiding principles that define how we do business.

AGILITY AND DETERMINATION IN ACHIEVING: Our agility enables us to seize and create the opportunity. We believe in the power of ambition and it is only by taking determined initiatives and by moving quickly that we can serve our clients with excellence, generate sustainable value for our people, our shareholders and contribute to our broader community.

CARE AND ENGAGEMENT IN WHAT WE DO: We believe that one has to care for what they do to do it well, fuelled by the passion and enthusiasm we put in every action we undertake. We operate in a spirit of cooperation and respect, by embracing each individual’s talents and we commit in creating a forward thinking environment driven by how we are engaged in improving what we leave behind.

TRUST AND RESPONSIBILITY IN OUR RELATIONSHIPS: We lead by example and take ownership of our individual responsibility. This means doing the right thing at all times and conducting our business with the highest standards of professional behaviour and ethics, by being honest in all our interactions with employees, consumers, partners and the public at large.

Our ambition is to deliver excellence at all steps of the value chain in all our operations. I believe it is the only way for Harel Mallac to create long-term shared value.

Charles Harel, Chief Executive Officer
